

YOUR ABILITY TO WITHDRAW FUNDS

This policy statement applies to all deposit accounts.

Our policy is to delay the availability of funds from your cash and check deposits. During the delay, you may not withdraw the funds in cash and we will not use the funds to pay checks that you have written.

Please remember that even after we have made funds available to you and you have withdrawn the funds, you are still responsible for checks you deposit that are returned to us unpaid and for any other problems involving your deposit.

Determining the Availability of a Deposit

The length of the delay is counted in business days from the day of your deposit. Every day is a business day except Saturdays, Sundays and federal holidays. If you make a deposit before 5 PM on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit after 5:00 PM or on a day we are not open, we will consider that the deposit was made on the next business day we are open. If you make a deposit at an ATM before 3:00 PM on a business day that we are open, we will consider that day to be the day of your deposit. However, if you make a deposit at an ATM after 3:00 PM or on a day we are not open, we will consider that the deposit was made on the next business day we are open.

The length of the delay varies depending on the type of deposit and as explained below.

Funds from the following deposits are available on the same business day as the day of deposit:

- Electronic direct deposits
- Wire Transfers

- State and local government checks payable to you but not deposited in person to an employee at the institution

Other Check Deposited

Our policy is to make funds from checks available as follows:

1. The first \$225 from a deposit of checks will be available on the first business day after the day of deposit. The remaining funds will be available on the second business day after the day of your deposit. For example, if you deposit a local check of \$700 on a Monday, \$225 of the deposit is available Tuesday. The remaining \$475 is available on Wednesday.

If we cash a check from you that is drawn on another bank, we may make funds from the deposit available for withdrawal immediately but delay your availability to withdraw a corresponding amount of funds that you have on deposit in the account to which the deposit is made. The funds in the account would then not be available for withdrawal until the time periods that are described elsewhere in this disclosure for the type of check that you deposited.

Longer Delays May Apply

Safeguard Exception Delays- Funds you deposit by check may be delayed for a longer period under the following circumstances:

- We believe a check you deposit will not be paid.
- You deposit checks totaling more than \$5,525 on any one day.
- You redeposit a check that has been returned unpaid.
- You have overdrawn your account repeatedly in the last six months.
- There is an emergency, such as failure of computer or communications equipment.
